# **QUICK GUIDE**

TO YOUR PERFECT

# power bank

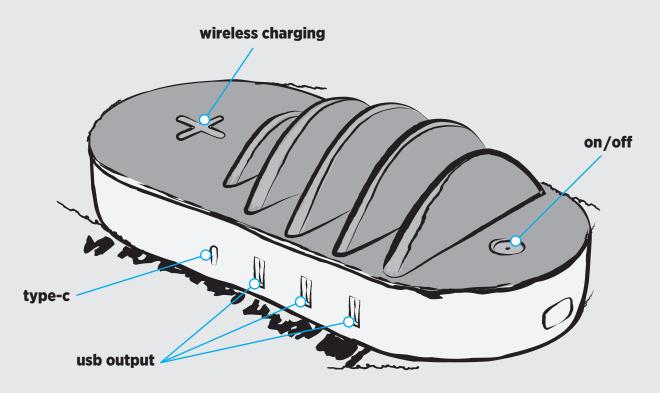

# Did you know?

There is no need to fully charge and discharge your power bank. It is possible to add 10%, 20% or 30% anytime you want. Partial cycles can even prolong the lifetime of your power bank.

## Sidney 37.825.12

#### **MULTY CHARGER FOR 5 DEVICES**

Multy charger and holder with 3 USB outputs, one Type-C output and wireless charger, in a gift box Wireless Output: 10W Total power: 50W

## How to extend your power bank life?

# AVOID FULLY CHARGING YOUR POWER BANK

For best performance and longer lifetime charge your power bank only up to 80% and discharge only up to 20%. Most power banks have a charging status indicator.

# DISCONNECT THE CHARGER OF YOUR POWER BANK AS SOON AS IT'S FULLY CHARGED

This is also useful when charging your device.

# CHARGE YOUR POWER BANK EVEN IF YOU DON'T USE IT

To keep the power bank in good working condition, you should charge it at least every three months.

### **CONSIDER TEMPERATURES**

The power bank should not be charged at temperatures of under 5 degrees and should not be discharged at temperatures over 40 degrees.
